

DO YOUR PART TO

AT THE

Stay Healthy Splash pad

SWALLOWING WATER IN SPLASH PADS & SPRAY PARKS **MIGHT MAKE YOU SICK**

- GERMS CAN GET INTO THE WATER THROUGH POOP COMING OUT OR WASHING OFF OUR BODIES
- SWALLOWING WATER CONTAINING GERMS CAN MAKE YOU SICK WITH DIARRHEA

- WATER IN SPLASH PADS IS TYPICALLY RECYCLED AND MIGHT CONTAIN GERMS
- WATER TREATMENTS LIKE CHLORINE DON'T KILL GERMS INSTANTLY
- PEE IN WATER WEAKENS THE GERM-KILLING POWER OF CHLORINE

DON'T SWALLOW THE WATER & DON'T SIT ON THE WATER JETS
KEEP PEE AND POOP OUT OF THE WATER

- STAY OUT OF THE WATER IF YOU HAVE HAD DIARRHEA
- TAKE LOTS OF BATHROOM BREAKS AND CHANGE DIAPERS EVERY 30-60 MINUTES AND CHANGE DIAPERS AWAY FROM THE WATER

DON'T DO THIS IN THE WATER

DO YOUR PART TO Stay Healthy **AT THE** pool

EVEN IN WELL-MAINTAINED POOLS SOME GERMS CAN SURVIVE IN PROPERLY CHLORINATED WATER FOR 7 DAYS

CHEMICALS HAVE TO BREAK DOWN THE PEE, POOP, SWEAT AND DIRT BROUGHT INTO THE WATER BY SWIMMERS LEAVING LESS CHEMICALS AVAILABLE TO KILL GERMS

FOR THESE REASONS, WE ASK THAT YOU FOLLOW **4** SIMPLE STEPS TO HEALTHIER SWIMMING:

- 1 SHOWER BEFORE YOU GET IN THE POOL - THE POOL IS ONLY AS CLEAN AS YOU ARE!
- 2 AVOID SWALLOWING WATER - THE POOL WATER MAY CONTAIN GERMS THAT CAN MAKE YOU SICK!
- 3 TAKE LOTS OF BATHROOM BREAKS - AND CHANGE DIAPERS IN THE RESTROOM, NOT POOLSIDE!
- 4 STAY OUT IF YOU HAVE HAD DIARRHEA - YOU MAY FEEL OKAY, BUT YOU CAN STILL GET OTHERS SICK!

DON'T DO THIS
